through the narrative analysis of texts ranging from political speeches to museum documents as well as graffiti and posters from protests this book tries to shed light on contemporary turkish politics as well as offering a glance into how narratives operate in the political realm following the journey of political narratives and counternarratives in the turkish context facilitates the mapping of the cultural terrain while being attentive to power resistance and dynamism by analyzing narratives of collective memory patriarchy and economic development all of which are deeply embedded culturally it traces the ways in which narratives shape politics the chapters deal with issues such as the role

historical narratives play in hegemonic power struggles among political parties the narrative resources upon which populist regimes draw how economic development narratives affect prospects of and threats against democratic practices and institutions and how protesters subvert dominant notions of citizenship through counternarratives

this book analyzes the political economic implications of system transformation as experienced now in central and eastern europe and in china the whole societal organization being in motion and economic activitybeing in a deep recession political leaders will find it extremely difficult to secure consensus and support for redesigning institutions and stabilizing and restructuring activity the ensuing process is certainly not one of optimal control but has rather evolutionary characteristics leading constantly to paradoxes and dilemmas the first part of the book discusses different paradigms within which the complex process of transformation could fruitfully be analyzed democratic theory bargaining theory efficiency theory institutionalism all contribute to the understanding of the complex phenomena keytopics of the second part are among others policy aspects of privatization adjustment of fiscal system and policy industrialrestructuring the different case of china the book illustrates that the first euphoria of planning the transition to markets was rather naive analytically and politically transformation is not only an economic puzzle not even in the first place it is very much of a sociopolitical problem andhas to be treated as such the book can be used as a reader or as background literature in corresponding course

norbert wunner presents an analysis of the main factors which have contributed to the slow and painful structural adjustment process and to the delay of economic reforms in transition countries from a political economy perspective
